Fernando CLARO is a family Tailor Made & Haute Couture brand for women, with a really long and remarkable trajectory of 35 years in the market. As many other great traditional family in fashion businesses, our company maintains the classic spirit of "*haute couture houses*" with the care and love for the art of couture and the fabrics, but also combined with new fashion trends.

Every haute couture piece that we create, is handmade in our workshop in Seville, under the supervision of the creator & pattern master, Fernando Claro (65). During the last 10 years, he has been helped closely by his daughter Beatriz, and that mix from old artistic conception of fashion and the fresh view and manners from a younger generation, enables this brand to have and maintain an elegant and innovative philosophy to keep hitting the market offer with strength and exclusivity. Since December 2019, the **company is also growing as an online solid seller** with really creative and innovative items and marketing.

We are glad and honored to present our biggest project in the following presentation.
